Sub: Seeking permission to conduct an online course on GIS

Respected Madam,

I, Sumita Roy, Faculty of Department of Geography, Netaji Nagar College, want to inform you that our department is interested to organize a course on Geographical Information System in virtual mode. As, at present, GIS have a wide range of occupational opportunities, so, it is my belief that the course will be beneficial for the students. For now, we will start the course on **experimental basis**. If we found that the fee, given by the registered students for the course, is enough to run the course, then only, we will continue the course. The name of the course is '**An Overview of Geographical Information System**'. I, Sumita Roy, shall be acting as the Nodal Officer or Course Coordinator and Moumita Sen will act as Helpdesk Officer. The course will take **30 hours** to completion. We would like to start the course on **27.10.21**.

If you would permit me to conduct the course then I shall be highly obliged.

Thank you.

Yours Faithfully,

Dear Prof. Chaudhuri,

Perhaps you may be aware that our students mostly come from the Bengali Medium Schools. They are bright students and doing well in their fields. But I feel that some of our students are deficient in their ability to write in English. So, it is felt that if our students get some training, they may learn and write English properly.

On behalf of Netaji Nagar College, it's our earnest request to you if you kindly accept the responsibility of giving the Spoken English Training to the students of the college.

I am looking forward to your kind consent.

Department of Journalism & Mass Communication

Course Outcomes and Program Outcomes **Course Outcomes**

Introduction to Journalism

Why should a student study “Introduction to Journalism”?

Conducting Journalism and Mass Communication as a discipline differs from other subjects under the umbrella of Humanities or Social Sciences, since it deals with practical training. Journalism is basically a professional course which offers multiple jobs in the different branches of Journalism. Most of the students pursuing Journalism & Mass Communication in their graduation nurture the dream of becoming journalists, reporters, anchors, photojournalists, directors, editors and R/Js etc. The profession they want to be in is extremely dynamic, intricate and full of adventure. To step in to this extremely competitive media industry, a student should first focus on his/her theoretical and conceptual foundations. In the age of extreme convergence, a mass communication student should have proficiency in language. Developing sense of news, and the ability to tell the ‘story’ or frame facts with proper interpretation needs rigorous practice. Defining news and its various facets is absolutely imperative for a student of Journalism. The topic “**Introduction to Journalism**” will help a student to probe into the labyrinthine alleys that exist behind the news process and beyond the knowledge of the mass audience. **Introduction of Journalism** will help students to know about these facts, which will be of immense help to them in future.

Introduction of Journalism also includes practical training which emphasises range of core skills. Besides practical training, a student needs to learn all theoretical knowledge to become a good journalist. Theoretical knowledge is absolutely imperative for an overall understanding of how professional journalism has evolved in India since late 18th

century. Until one goes through both practical and theoretical trainings, one's understanding of the subject is incomplete.

One also needs to have basic knowledge of computers for print journalism since presentation of news in an attractive manner is of paramount importance. In journalism, presentation of news is the principal thing. Handling the page and the editing are the most important processes. One can make news interesting through an attractive headline as well as through equally attractive intro and language. A student should develop command over the language of communication. He/she should know and practice different writing styles that fit the different needs of the media. It would be greatly beneficial for a student if he/she gets the chance to embrace these exercises within his/her curriculum. The practical portions will not only hone a student's writing skills but also will help him/her prepare for any future professional endeavor.

History of Indian Journalism

A student of any discipline should know its historical background. The same applies for a student of Journalism as well. It is absolutely mandatory for a student of Journalism to know what led to the birth of Journalism and how it has evolved all over the world over the past couple of centuries. It is all the more important for a student to know how Journalism as a profession came into being in India and what stellar role it has played in the evolution of the Indian society in the past two hundred and fifty years. A student needs to know the formidable role of Journalism in effecting social, religious and administrative reforms in the past two centuries. And also the pivotal role of the Press in galvanising the independence movement against colonial rule.

Studying **History of Indian Journalism** will help students to know the simultaneous growth of both the vernacular and English language Press and their overall impact both in the pre and post independence era. A comprehensive and unbiased understanding of the present is not possible and complete without awareness of the past. Here lies the essence of understanding History. History is not about mundane details of

events in proper chronological order. It is the perfect window to look at the events of the past that inevitably get to know about the evolution of Indian Journalism by learning the history. We come across facts like - how to India and who introduced it. Journalism is mode of communication in pre Independence Presses like Digdarshan, Samachar Darpan played a great role in India's freedom struggle. How the press played its role in the struggle a taxinating area of study. Social reforms movement is also closely related with the Indian Journalism. Even the legends of Bengal were also associated with the press. To understand the significance of modern day Journalism, it is essential to know how important was the role of the press in the pre independence era.

FEEDBACK ANALYSIS (2020-21)

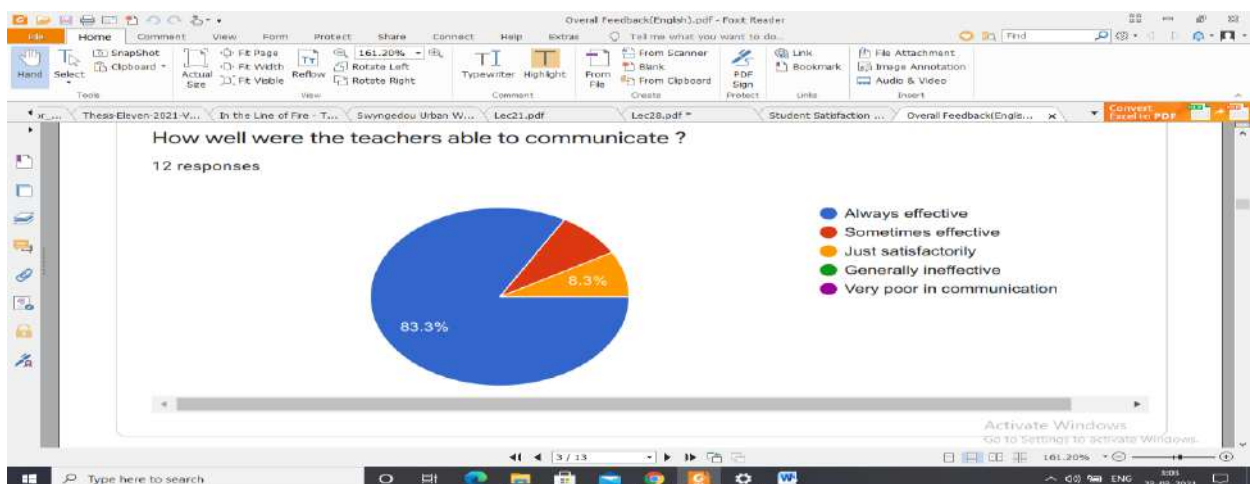

Department of English

Students Feedback Analysis:

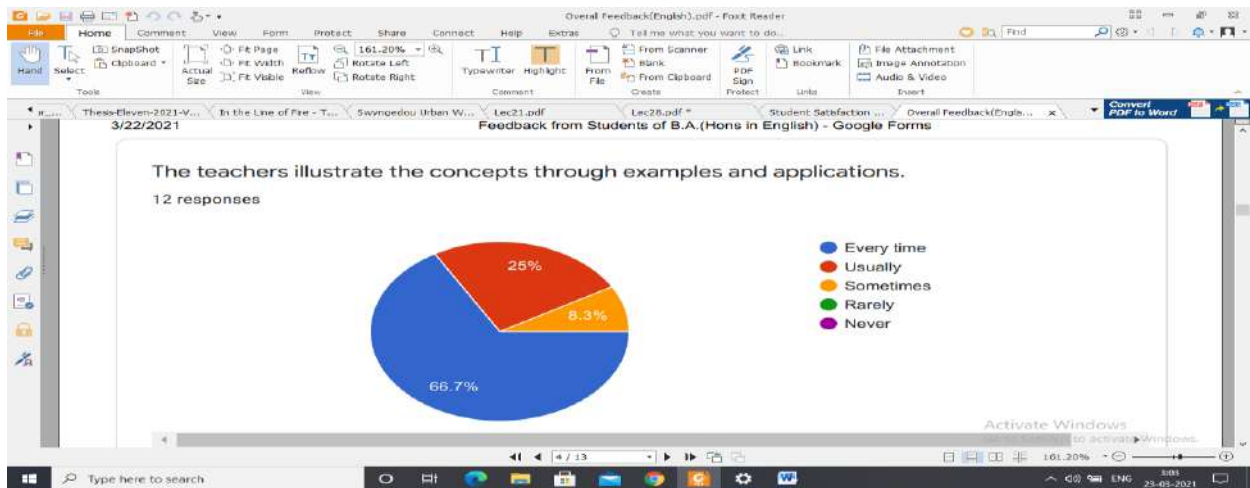

The students of English Hons have provided their valuable feedbacks on the teaching learning in our department. The analysis of the feedback is as follows:

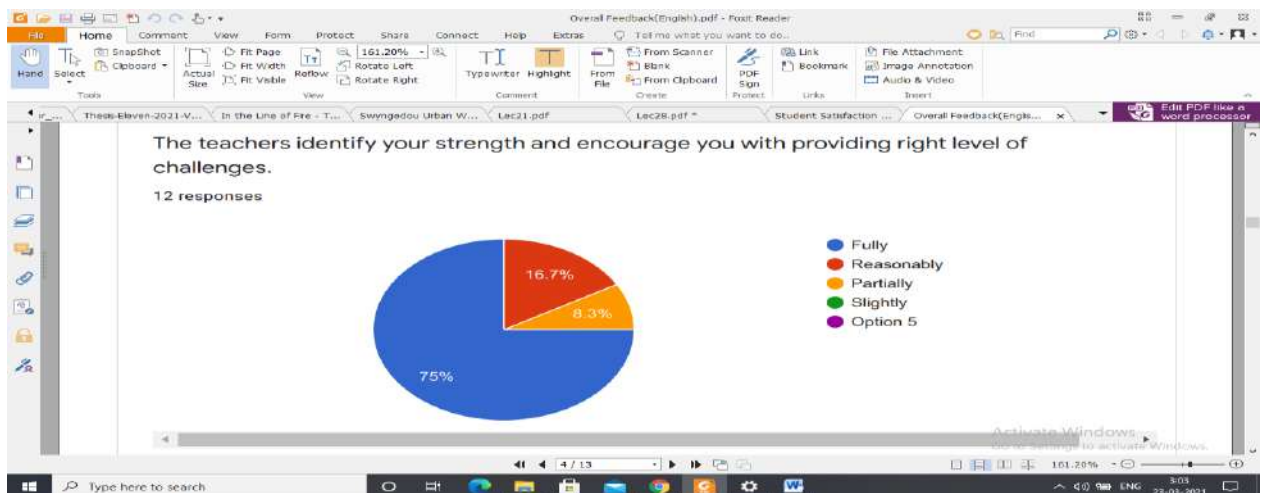

A very high percentage of students have given very positive feedback regarding syllabus coverage which is of utmost importance to the department. We will also try to bring the 16.7% students who have rated us between 70-84% within the group of more aware students. This will remain our continuous endeavour.

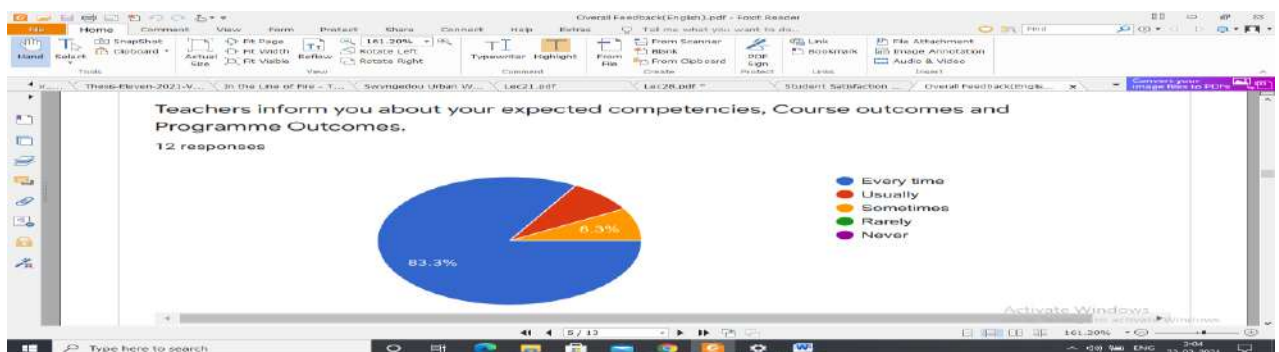

Very high rating by the students regarding communication abilities by the teachers is always extremely gratifying. However, we would specially give attention and care to the minority 8.3% students who have rated us 'just satisfactory' and try to address their problems.

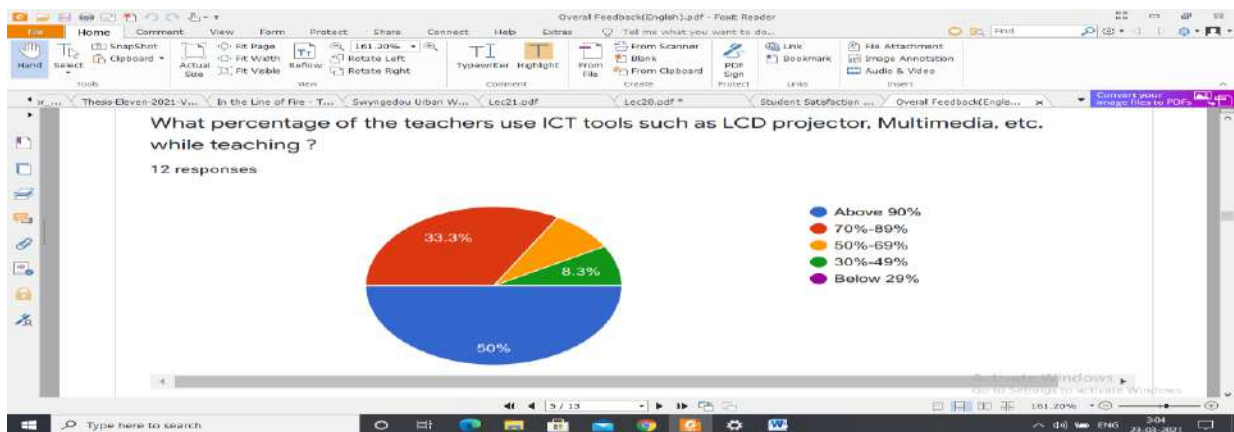

The teachers have been rated moderately well regarding this teaching methodology. There are also scopes of improvements which will be given importance.

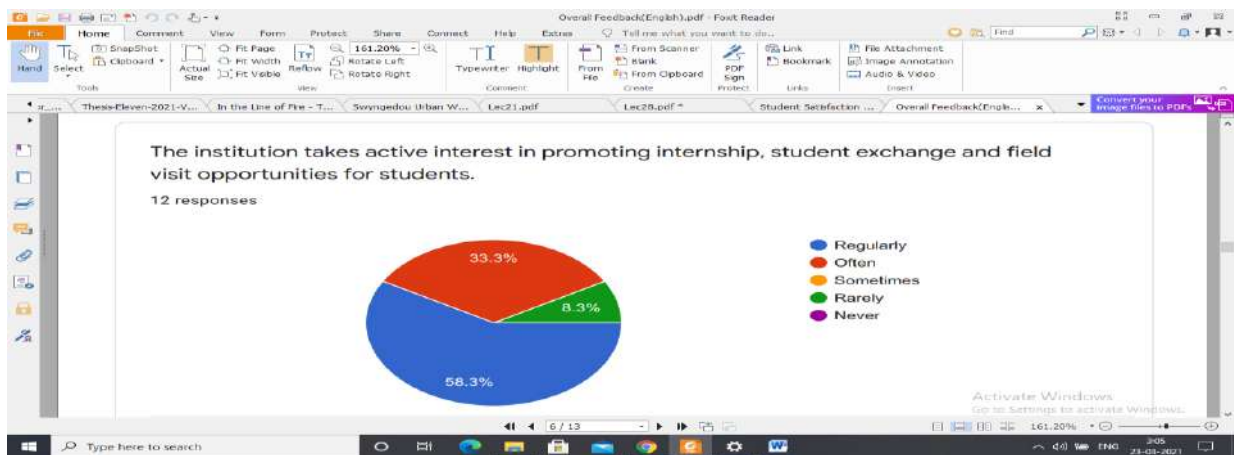

Feedback is mostly positive. Special care to be given and planned remedial classes would be taken to encourage the small minority of 8.3% students who are finding it difficult to gather enough strength and courage.

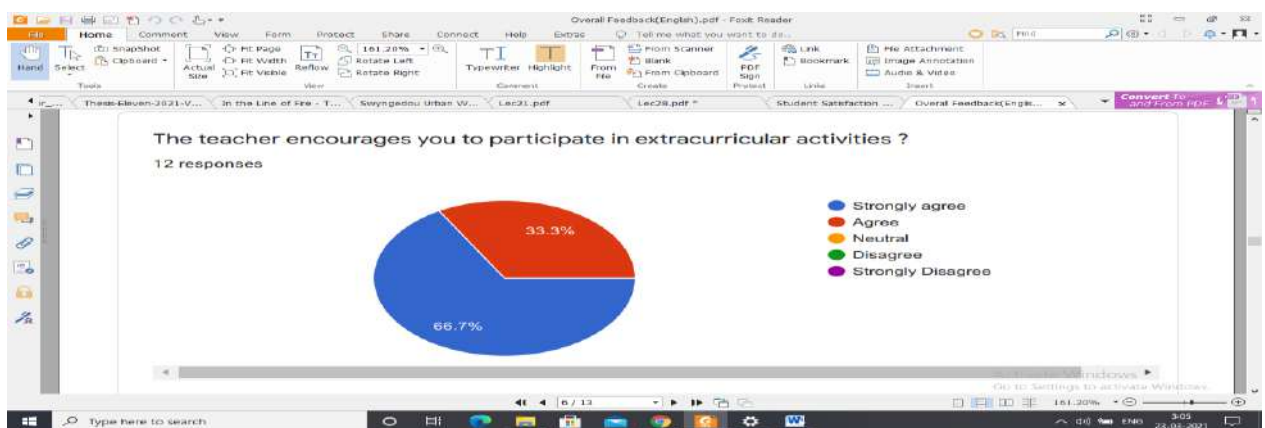

Very high rating by the students. Extra care will be taken in future to make the students more aware.

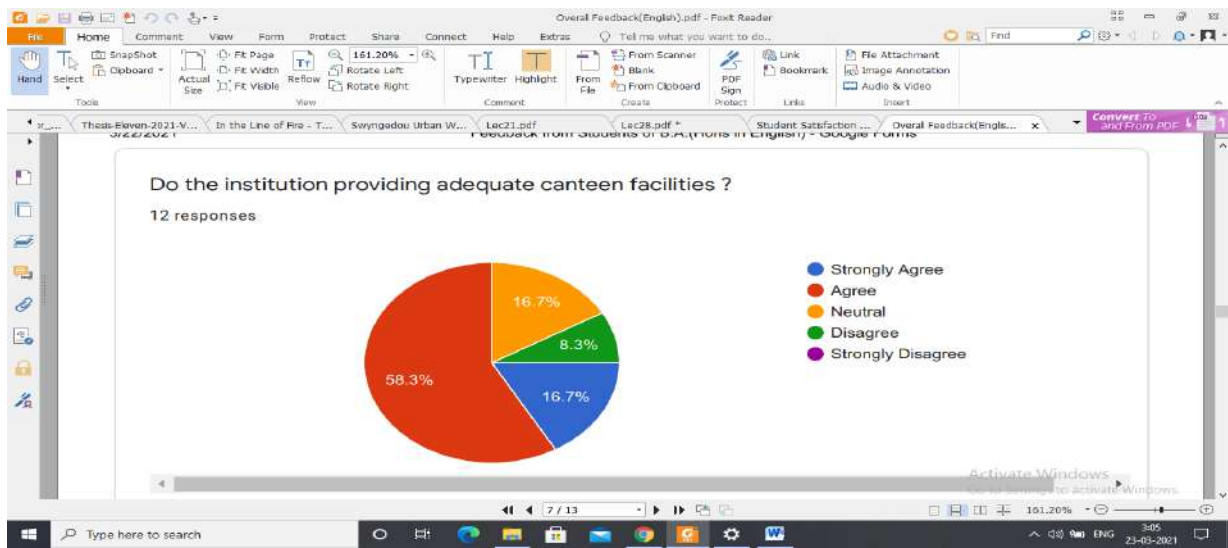

More classes using ICTs need to be taken and more teachers need to get well acquainted with digital learning. The department will take up this issue in the departmental meeting.

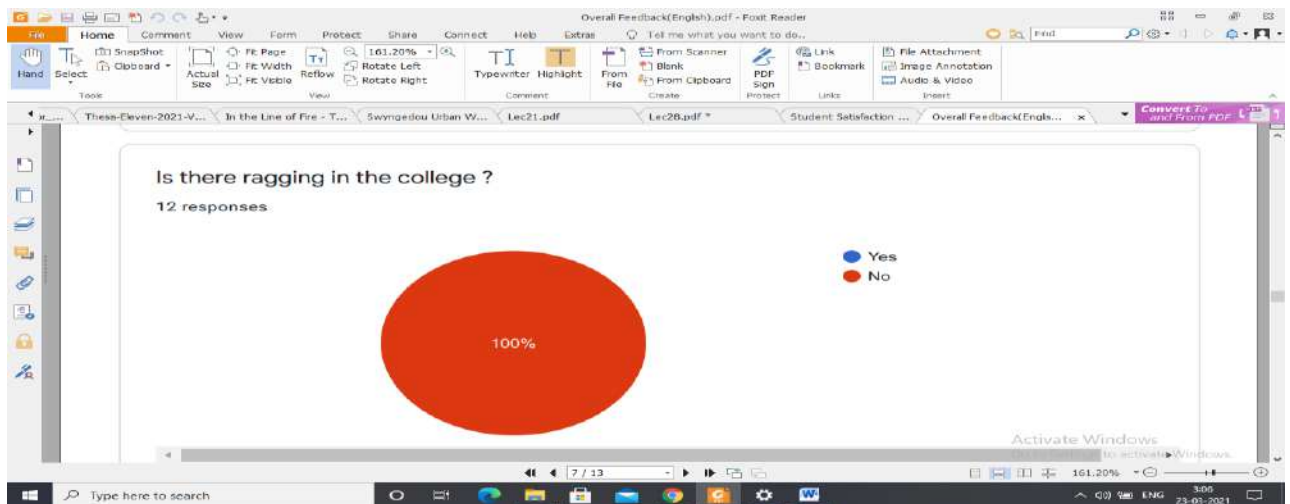

The department plans to involve more students in the study tours and exchange programs in the near future.

The department has a rich history of excellence in extracurricular activities. However, it seems awareness among the students is not up to the mark. The department will focus on this.

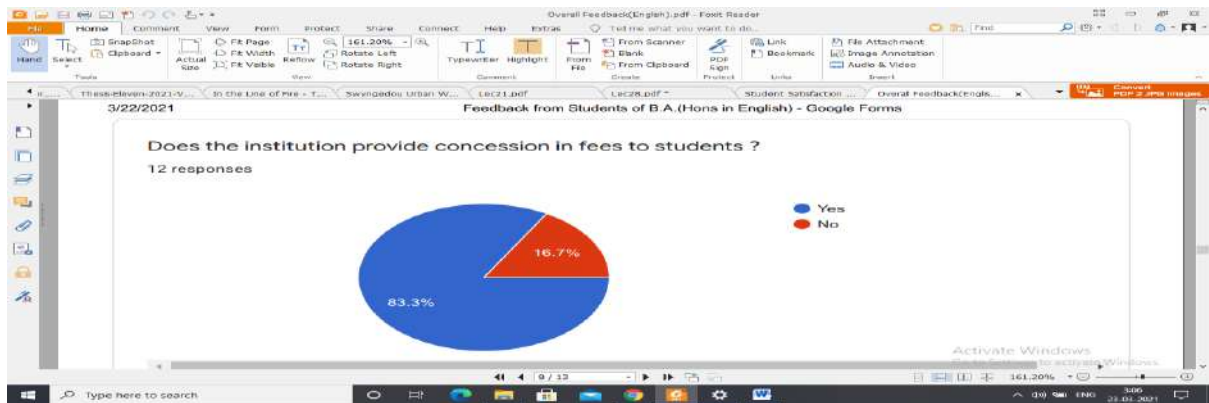

Long surviving infrastructural problem. The department will take up this issue with the appropriate college authority.

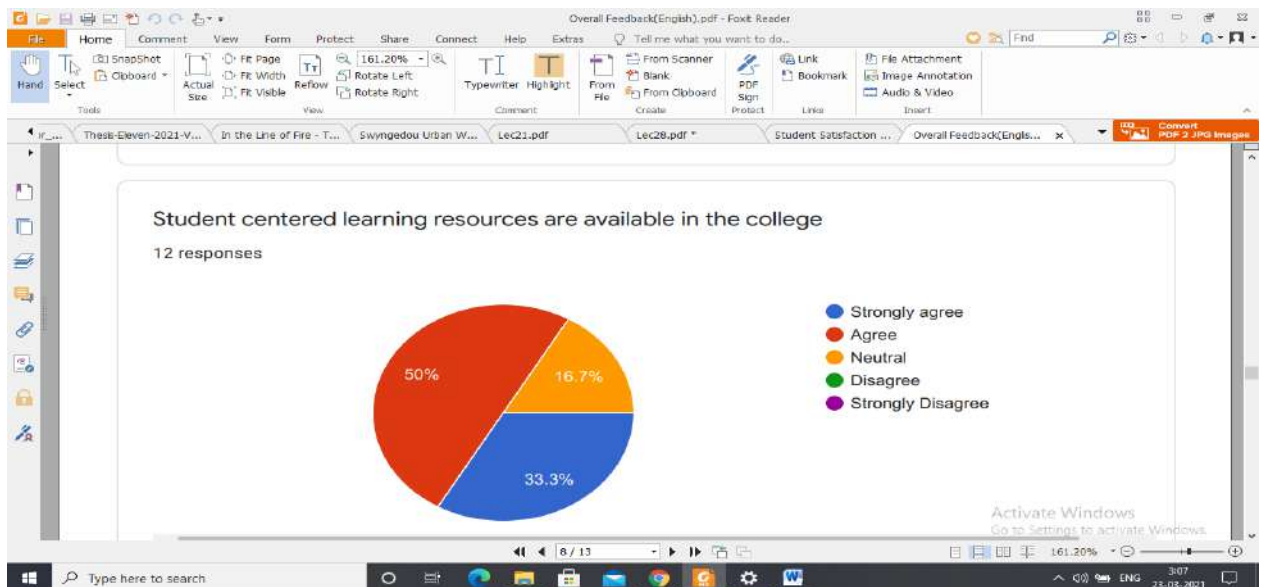

Zero tolerance towards ragging has been reflected in the feedback.

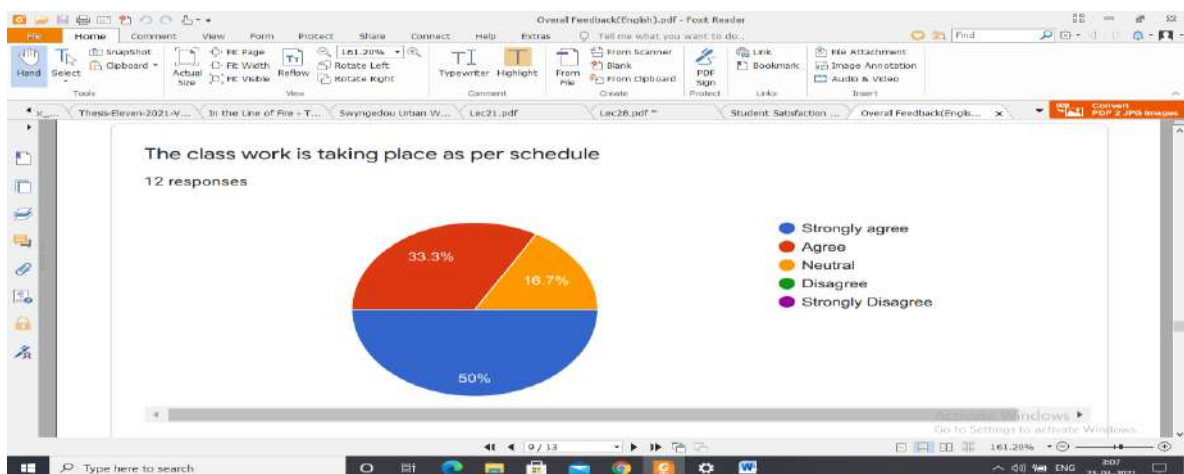

reflected in the feedback.

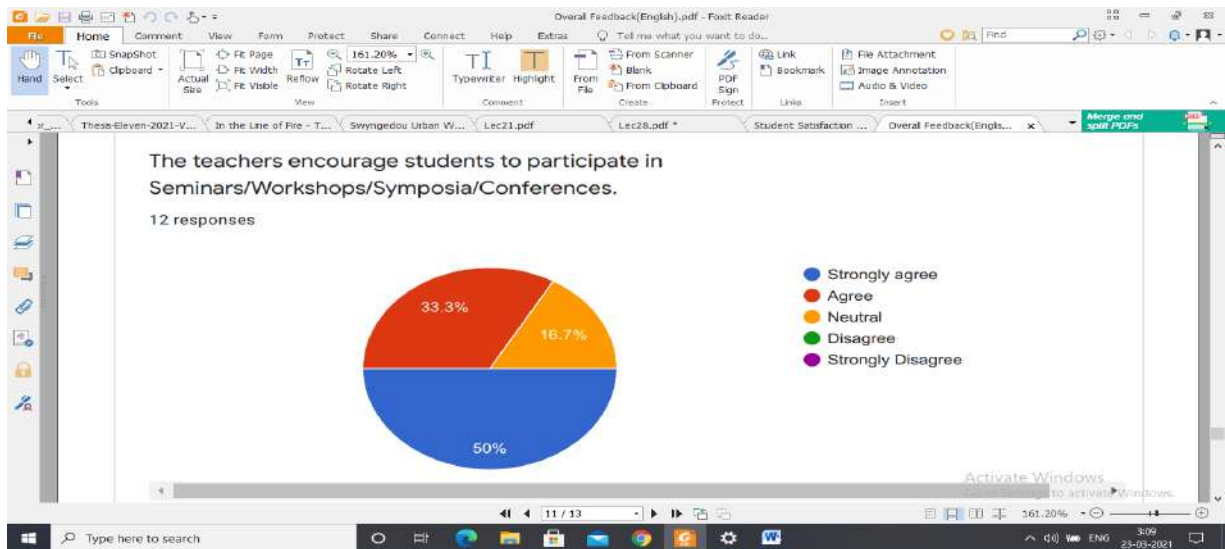

This has been one of the most significant facilities provided to the students making it possible for students coming from financially lower strata of the society to complete their higher education.

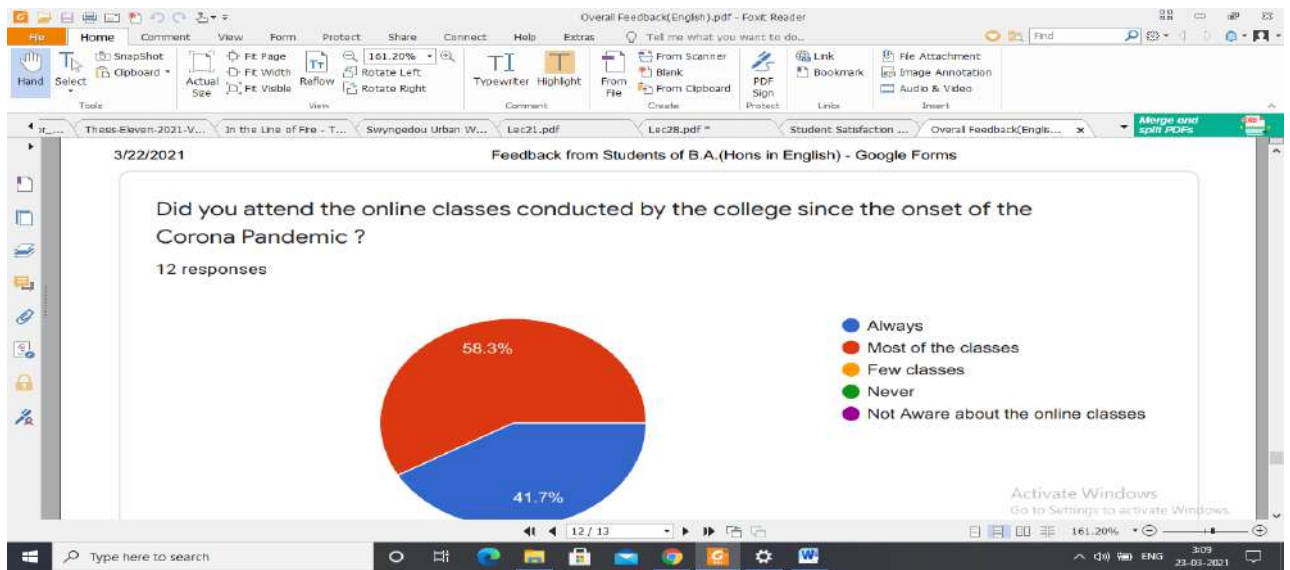

More than 80% of the students have given us positive feedbacks. However more computers and internet should be provided to the students free of cost.

No compromise in the standard of teaching is reflected in the high approval rating.

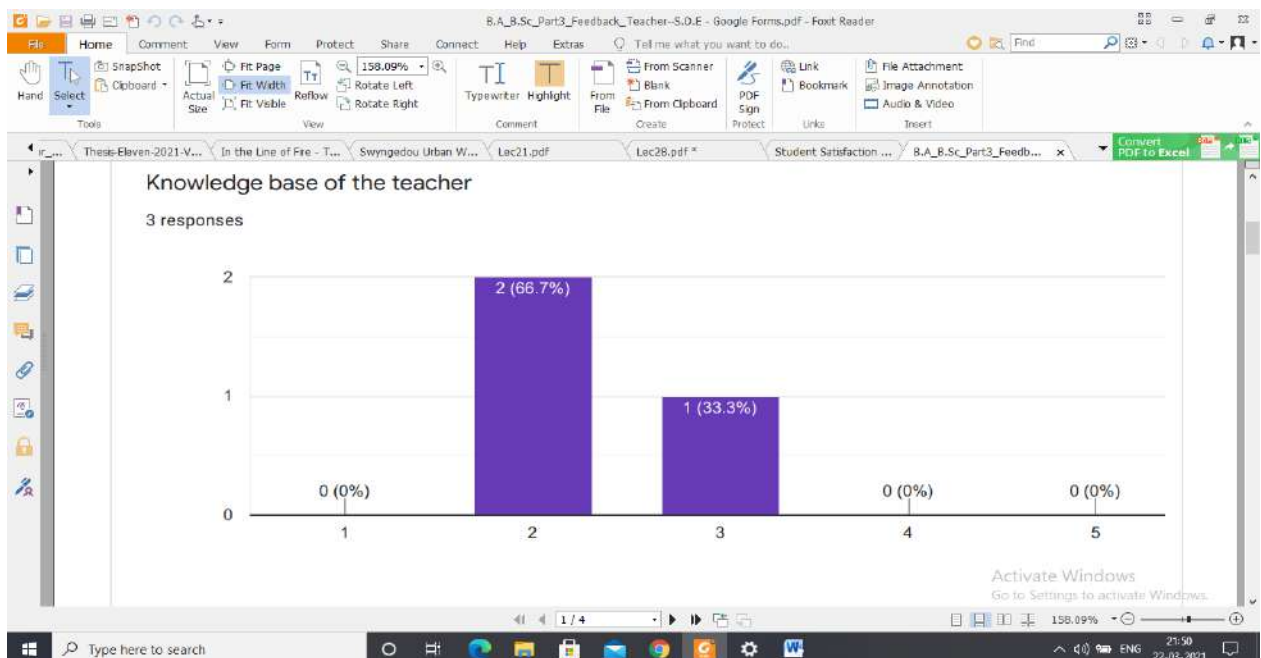

The department continuously encourages the students to take part in academic activities outside the classroom. The feedback graph corroborates the fact that our students are continuously motivated and have taken part in many seminars, conferences etc.

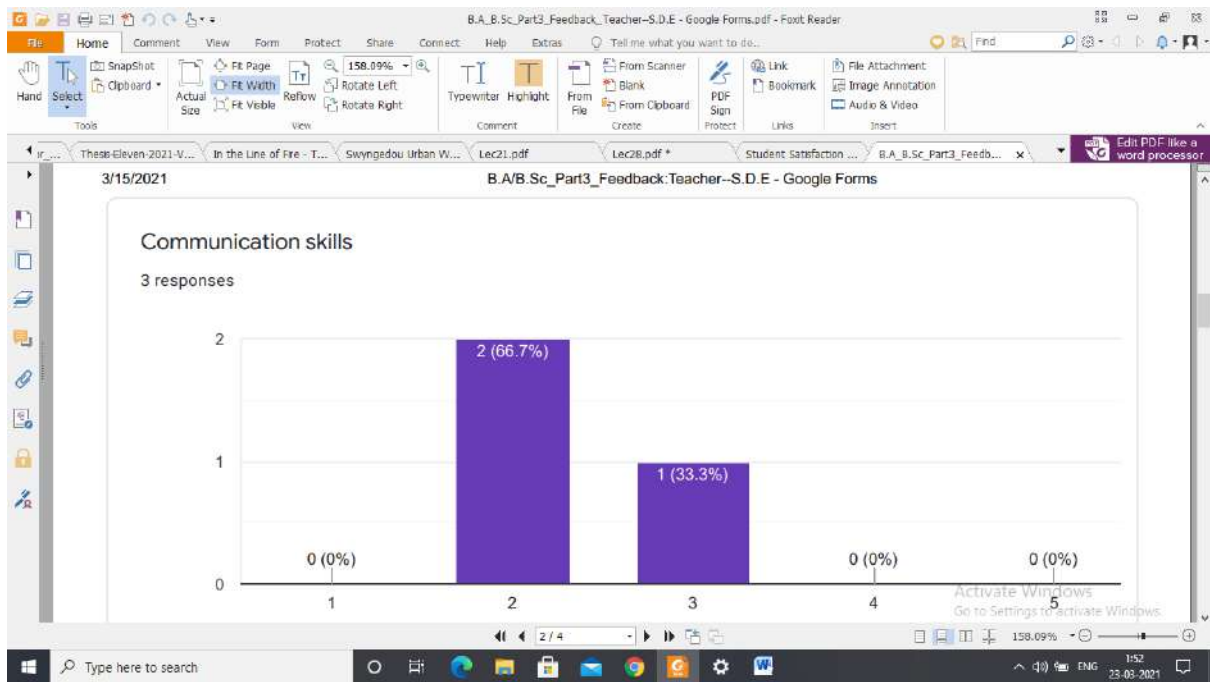

The department has taken extra care during the pandemic times to create awareness among the students regarding online classes. Most of the students have benefitted from online classes though connectivity issues have sometimes plagued our endeavours.
